

# MANN-FILTER

## Product Information

No 106  
16/07/2014

### New Design of end caps with bypass valve for div. hydraulic elements

In the same way as for the OE elements, MANN-FILTER has improved the end caps with bypass valve. There are noticeable differences in appearance of the various versions. Regardless of the appearance, all indicated versions meet the specifications and can be fitted without hesitations.

Following hydraulic elements have been adapted:

- HD 614
- HD 829
- HD 1040
- HD 1060
- HD 1288
- HD 12 127
- HD 12 112/2

Please refer our online catalogue under <https://catalog.mann-filter.com> for appropriate vehicle applications.
