

Example MEYLE No.: 100 152 2001

Smart and sustainable solution for the workshops!

With 15 different MEYLE-KITS the workshops get offered a smart as well as time- and cost-efficient cardan shaft repair solution. Enabling workshops to change a faulty centre bearing easily without having to replace the complete cardan shaft, as is the case with the OE equivalent. Compared to OE, the MEYLE

solution is a major cost saver and helps economise on resources. Over 10 million vehicles on the road in Europe of manufactures as Audi, Seat, Skoda, VW, Porsche and Mercedes-Benz can be covered by this MEYLE-KIT.

15 different kits for over 10 million vehicles in Europe: Audis, Seat, Skoda, VW, Porsche and Mercedes-Benz

Single replacement of the centre bearing instead of replacing complete cardan shaft.

MEYLE-KIT contains: bearing, clamp ring, rubber boot, mounting material and grease

Detailed assembly instruction ensures error-free maintenance

Time- and cost-efficient maintenance for workshops and their customers

MEYLE recommends: When replacing the center bearing, also replace the flex disc - the MEYLE-HD flex disc guarantees better performance and an above-average service life. Example MEYLE no. 100 152 2102/HD

Cardan shaft maintenance using the MEYLE-ORIGINAL centre bearing kit
